PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY

Establishment of the District

1.1 Location and Size

The Bosomtwe District, is located at the central part of the Ashanti Region and lies within latitudes 6° 24' South and 6° 43' North and longitudes 1° 15' East and 1° 46' West. It is bounded on the north by Asokwa Municipal, on the east by Ejisu Municipal, on the south by Bekwai Municipal and Bosome - Freho District on the west. The district has a land size of about 422.5 km². It is the eleventh largest district in the Ashanti Region.

The Bosomtwe District Assembly was established on 1st November 2007, by LI 1922. It was carved out of the then Bosomtwe Atwima Kwanwoma District (now Bosomtwe and Atwima Kwanwoma).

There is a total of 67 settlements in the District and three Area Councils (Kuntanase, Boneso and Jachie). The District capital, Kuntanase, is about 30km from Kumasi, the regional capital of Ashanti.

POPULATION STRUCTURE

Using the Ashanti Regional growth rate of 1.2%, the estimated population of the District for 2024 is 172,243. Estimates of 84,846(49.3%) are males and 87,397(50.7%) females

The District also has a rural population (73,814) and urban population (91,366). The district has a more youthful population. A total of 36.1% of the population are within the ages of 0-14 years and 59.7% constitute the active population (15-64). This gives the District the pool of labor, which can be harnessed to support its developmental activities.

About 59.7 percent of the population aged 15 years and older are economically active while 40.3 percent are economically not active.

VISION OF THE DISTRICT ASSEMBLY

The vision of the Assembly is “to become the leading eco-tourism destination and the most progressive district Assembly in the Ashanti Region providing sustainable programmes and projects with the full participation of its citizenry to improve the lot of the people”

MISSION OF THE DISTRICT ASSEMBLY

The Bosomtwe District Assembly exists “to promote and undertake sustainable development programmes and projects to stimulate socio-economic development to enhance the quality of life of its people with full participation of the people”

GOALS

The goal of the Bosomtwe District Assembly District is to improve upon the standard of living of the people through the provision of basic socio-economic infrastructure in partnership with all stakeholders and ensure equitable access to basic social services such as quality health care and education, safe drinking water and sanitation, good roads, security and the promotion of modernized agriculture for accelerated development at all levels

CORE FUNCTIONS

The core functions of the Bosomtwe District Assembly as outlined in section 12 of the Local Governance Act, 2016, Act 936 are as follows:

- Exercise political and administrative authority in the district; promote local economic development; and provide guidance, give direction to and supervise other administrative authorities in the district as may be prescribed by law.
- Exercise deliberative, legislative and executive functions.
- Be responsible for the overall development of the district; formulate and execute plans, programmes and strategies for the effective mobilization of the resources necessary for the overall development of the district;
- Promote and support productive activity and social development in the district and remove any obstacle to development.
- Initiate programmes for the development of basic infrastructure and provide municipal works and services, be responsible for the development, improvement and management of human settlements and the environment in the district
- In co-operation with the appropriate national and local security agencies, be responsible for the maintenance of security and public safety in the district; ensure ready access to courts in the district for the promotion of justice;
- Initiate and encourage joint participation with other persons or bodies to execute approved development plans.
- Take steps and measures that are necessary and expedient to execute approved development plans for the district; guide, encourage and support sub-district local structures, public agencies and local communities to perform their functions in the execution of approved development plans.
- Promote or encourage other persons or bodies to undertake projects under approved development plans; and monitor the execution of projects under approved development plans and assess and evaluate their impact on the development of the district and national economy in accordance with government policy.

- District Assembly shall co-ordinate, integrate and harmonies the execution of programmes and projects under approved development plans for the district and other development programmes promoted or carried out by Ministries, Departments, public corporations and other statutory bodies and non- governmental Organizations in the district.

Section 13 of Act 936 outlines the Functions of the District Assembly under other enactments

- ❖ A District Assembly shall be the authority to carry out and execute within its district the provisions of
 - (a) The Auction Sales Act, 1989 (P.N.D.C.L.230);
 - (b) The Liquor Licensing Act, 1970 (Act 331); and
 - (c) The Control and Prevention of Bushfires Act, 1990(P.N.D.C.L. 229).
- ❖ A District Assembly shall be the authority to carry out and execute the following provisions of the Criminal Offences Act, 1960 (Act 29) within its district:
 - (a) Section 296 in respect of throwing rubbish in the street; and
 - (b) Section 300 in respect of stray cattle

DISTRICT ECONOMY

a. AGRICULTURE

Agriculture dominates the local economy, employing 62.9% of the labor force. There are three main types of agricultural practices: crop farming (food and cash crops farming), fishing and animal husbandry. Most households practice a mixture of the three.

Crop production is characterized by small farmland holdings with farmers mainly being subsistence farmers. Prevalent among the farmers is the use of simple tools and techniques, bush fallowing or cultivation practices, over reliance on rain-fed agriculture and generally, low productivity.

There is vast arable land available for commercial agriculture available for potential investors in the district. The soil types in the district are ideal for the cultivation of both cash and food crops and thus, serves as a potential to the district and farmers to take advantage to increase their yields. Cash crops like coffee and cocoa can be properly developed for export to earn foreign exchange. Looking at the District's Geology, gold deposits can also be tapped for exports as well.

The District has opportunities for large scale production of cassava, oil palm and plantain for processing and export. Farmers could be supported to cultivate these produces in very large quantities, not for home consumption alone, but for processing and value addition. An instance is, production of cassava into starch for industrial purposes, plantain chips and palm oil production.

In addition, Bee keeping farming can be developed to provide raw materials for the growing pharmaceutical industries in the district.

Fish farming: The construction of fish ponds on the Lake Bosomtwe and other surrounding communities to provide food, income and employment. The fishes can also serve as raw materials for some industries.

b. ROAD NETWORK

There is about 415 km length of roads in the district. They are categorized as follows:

2nd Class - 115km

3rd Class - 300km

c. ENERGY

The three-main sources of lighting in households are electricity grid (69.4%), flashlight (16.5%) and kerosene lamp (11.5%). This follows a similar pattern in the national record of 64.2 percent usage of electricity, 17.8 percent of kerosene lamp and 15.7 percent of

flashlights as the main source for lighting. The similar situation is also evidenced in the Ashanti Region with electricity usage of 73.6 percent, electricity (73.6%), followed by flashlight/torch (17.3%) and kerosene lamp (7.0%). The proportion of dwelling units in urban areas using electricity (79.7%) can be compared favorably with flashlight (11.1%) and kerosene (6.8%) usage. In rural areas, electricity (grid) usage accounts for 65.1 percent while flashlight and kerosene accounted for 18.7 percent and 13.5 percent respectively.

d. HEALTH

The district has thirty (30) health facilities all working to promote the health conditions of the people. The health facilities are made up of the following:

- Seven (7) Hospitals
- Six (6) CHPS Compounds
- Five (5) Clinics
- Two (2) Maternity Homes
- Six (6) Health Centers
- Four (4) Reproductive and Child Health (RCH)

There are 52 outreach points where Reproductive and Child Health Services are rendered. One of the strongest strengths of the district is the community-based surveillance programme. Sixty-six (66) functional and active Community Based Surveillance Volunteers (CBSVs) have been trained to support community health activities. They record and report on monthly basis diseases, deliveries and deaths in their various communities. Currently, the district is running the Community TB Care programme with the support of the CBSVs.

e. EDUCATION

Currently, there are Three Hundred and Six (306) basic schools in the District, comprising one hundred and eighty-five (185) public and one hundred and twenty-one (121) private schools. The District has six (6) circuits with a total number of 36,331 persons who are in school; males are slightly higher with 51.4 percent than females with 48.6 percent. There

are eight (8) Senior High and Vocational schools, one (1) Midwifery Training School and two (2) private universities in the District.

Net Enrolment Rate (NER)

The NER at the primary school level increased from 98.6% in 2016 to 99.2% in 2017. The NER for boys increased from 77.1% to 98.6% within the same period as an achievement over the 95% target for the District. Similarly, the NER for girls exceeded the District target of 95% and the national target of 90%, increasing from 72.4% to 98.5%. Factors such as the School Feeding Programme and the capitation grant largely account for the increase in the NER. The achievement of the female NER target is also indicative of an increasing interest in girl child education.

Gender Parity Index

The GPI is the ratio of female to male in a school population at a given level of education with 1 as the point of parity or equality. A parity of 1 is an indication of equal number of boys and girls. The gender parity indices of the basic level of education in the District indicate a higher number of boys than girls, though marginally. The year, 2017 saw Gender Parity Ratio at the KG level increase from 0.98:1 to 1.01:1, reflecting a 9.6% rise in girl-child enrolment recorded during the 2017 academic year. This is not only due to increasing female demographics but also indicative of the significant impacts being made by girl-child enrolment boosting drives in the District.

At the primary school level, the GPI fell slightly from 0.97:1 in 2015 to 0.95:1 (11581 females to 12105 males) in 2016. The JHS level recorded a GPI of 0.91:1 (4509 females to 4954 males), a slight fall from the 2015 index of 0.93.

f. MARKET CENTRES

Notable market infrastructure in the District is found at Aputuogya, Kuntanase, Jackie, Esereso, Brodekwano, and Feyiase.

g. WATER AND SANITATION

The Bosomtwe District has Boreholes, Protected Well, Rain water, Protected Spring, rivers, streams, Dugout, Ponds, Lake and others as sources of water. A total of 54.1 percent of households in the Bosomtwe District use bore-hole while 56.9 percent of households use other sources of water.

One-half of the dwelling units in the District have private toilet facilities that include WC (9.3%), pit latrine (25.3%), KVIP (11.1%) and bucket/pan latrine (0.3%). The dwelling units that depend on public toilets are 48.1 percent and 5.7 percent have no toilet facility.

For disposal of solid waste, three main methods are used in 79.1 percent of the dwelling units as follows: dumping in open public places (65.9%), dumping in container in public place (9.3%) and collected (3.9%).

It is clear that more than half of households (53%) in the rural areas use the public toilet while 37.3 percent use the same facility in the urban areas. A relatively small proportion of households practice open defecation (3.4% and 6.7% in urban and rural areas respectively).

h. TOURISM

At the moment, only one settlement (Abono), a fishing community with a projected population of about 1,549, has its tourism potential relatively developed.

There is also the availability of 24-hour electricity, lake transport, and telecommunication and toilet facilities. Moreover, hotel accommodation, restaurant, summer huts, and open terraces are also springing up throughout the district and especially around the lake.

Key Issues/Challenges

- Poor conditions of road network
- Poor linkage between agriculture and markets
- Undeveloped local tourism potentials
- Improper disposal of solid and liquid waste

Key Achievements in 2024

PROGRAMME 1: Management and Administration

SUB-PROGRAMME 1.1 General Administration

1. Budget Sub-Programme Objective

- To provide administrative support and ensure effective coordination of the activities of the various departments and quasi institutions under the District Assembly.
- To ensure the effective functioning of all the sub-structures to deepen the decentralization process.

2. Budget Sub-Programme Description

The General Administration sub-programme looks at the provision of administrative support and effective coordination of the activities of the various departments through the Office of the District Co-ordinating Director. The sub-programme is responsible for all activities and programmes relating to general services, internal controls, procurement/stores, transport, public relation and security.

The core function of the General Administration unit is to facilitate the Assembly's activities with the various departments, quasi institution, and traditional authorities and also mandated to carry out regular maintenance of the Assembly's properties. In addition, the District Security Committee (DISEC) is mandated to initiate and implement programmes and strategies to improve public security in the District.

The Internal Audit Unit is authorized to spearhead the implementation of internal audit control procedures and processes to manage audit risks, detection and prevention of misstatement of facts that could lead to fraud, waste and abuse to the Assembly.

Under the sub-programme the procurement processes of Goods and Services and Assets for the Assembly and the duty of ensuring inventory and stores management is being led by the Procurement/Stores Unit.

The number of staff delivering the sub-programme is seventy-one (71) with funding from GoG transfers (DACF, DACF-RFG etc.) and the Assembly's Internally Generated Fund (IGF). Beneficiaries of this sub-program are the departments, Regional Coordinating Council, quasi institutions, traditional authorities, non-governmental organizations, civil society organizations and the general public.

The main challenges this sub programme will encounter are inadequate, delay and untimely release of funds, inadequate office space, and non-decentralization of some key departments.

SUB-PROGRAMME 1.3 Human Resource Management

1. Budget Sub-Programme Objective

- To achieve institutional performance goals that are linked to the individual and team performance objectives, as the basis for measuring performance results and merit.
- To provide Human Resource Planning and Development of the Assembly.
- To develop capacity of staff to deliver quality services.

2. *Budget Sub-Programme Description*

The Human Resource Management seeks to improve the departments, division and unit's decision making and build capacity of the manpower which will ultimately improve the workforce and organizational effectiveness. In carrying out this sub-programme it is expected that productivity would be enhanced at the Assembly as well as decision making in the management of Human Resource.

Major services and operations delivered by the sub-program include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies at the district.

Under this, Two (2) Officers will carry out the implementation of the sub-programme with main funding from GoG transfer and Internally Generated Fund. The work of the human resource management is challenged with inadequate staffing levels, inadequate office space and logistics. The sub-programme would be beneficial to staff of the Departments of the Assembly, Local Government Service Secretariat and the general public.

3. *Budget Sub-Programme Results Statement*

SUB-PROGRAMME 1.5 Legislative Oversight

1. Budget Sub-Programme Objective

To ensure full implementation of the political, administrative and fiscal decentralization reforms.

2. *Budget Sub-Programme Description*

This sub-programme formulates appropriate specific district policies and implement them in the context of national policies. These policies are deliberated upon by its Zonal/Town/Area Councils, Sub-Committees and the Executive Committee. The report of the Executive Committee is eventually considered, approved and passed by the General Assembly into lawful district policies and objectives for the growth and development of the district.

The office of the Honorable Presiding Member spearheads the work of the Legislative Oversight role and ably assisted by the Office of the District Coordinating Director. The main unit of this sub-programme is the Zonal/Area Councils, Office of the Presiding Member and the Office of the District Coordinating Director.

The activities of this sub-programme are financed through the IGF, and DACF funding sources available to the Assembly. The beneficiaries of this sub-programme are the Zonal/Town/Area Councils, local communities and the general public. Efforts of this sub-programme are however constrained and challenged by the inadequate logistics to the Zonal/Town/Area Councils of the Assembly.
